

## Octopus Liquid Polymer System LPS

Octopus LPS mixes and stores liquid emulsion polymer solution. LPS works in batches through a simple effective double tank system. LPS combines the advantages of a compact economical system with the volume & activation time of a bigger system. LPS is delivered with or without control panel & dosing pumps.

- Compact, Automatic, Hygienic, CE approved
- Self emptying make up tank, Octagonal tank for optimum mixing
- Big inspection lids for easy access
- Entirely from thick stainless steel incl stainless full flow valves & pipes
- New innovative design, Patented pvc wetter/eductor
- Flexible company highly experienced in design engineering, sludge treatment. Extensive knowledge on chemicals. Complete in house laboratory.

## Octopus Liquid Polymer System LPS

	LPS 3	LPS 5
Volume l	300	500
Capacity l/h *	9	12
L	800	950
W	900	1050
H	1810	1810
